

ATLANTIS KV

Una National Park
Kulen Vakuf
Bosna i Hercegovina

Mission statement

ATLANTIS KV provides free space for international artists, open-minded visitors and local workers to try new ways of living based on sustainable principles. Local and international guests are welcome to relax, enjoy the beautiful Una National Park and contribute to the project by doing, learning or donating.

Title
Mission statement

The project is located within a large factory in Kulen Vakuf, Bosnia and Herzegovina. Having been built as a factory under the Tito regime, its location within the Una National Park is unique and allows for a range of leisure activities such as rafting, hiking and bike tours. The huge warehouse next to the factory highlights all art projects realised within **ATLANTIS KV**: murals, paintings, handicraft, textile production and screen printing. In regards to agriculture and ecology, staff members and visitors engage in a variety of projects such as planting, gardening and the production of goat cheese, milk, jam, dried fruits, corn flour and liqueur.
