Golden Memberships

To realise the defined goals and projects, **ATLANTIS KV** is reliant on financial contributions from partners and sponsors. While income from the textile department, sponge and cushion production, tourist offerings and other projects can cover most of the running expenses, it's aim is to grow organically and substantially. The company applies a 'first come first serve' principle to benefit its earliest members. The first 100 members paid less than 10,-€, the first 300 members pay 10,-€, and the rate will further be raised gradually.
